

Accelerate Enrollment from Application to Aid

Connect admissions and financial aid in one seamless journey

With the new two-way integration between Ravenna Admissions® and Ravenna Financial Aid®, it's easier than ever for private K-12 schools to streamline critical enrollment steps for families, reduce administrative work and maintain accurate data across both systems.

A Smarter Enrollment Experience for Schools & Families

Saves Time for Families

Admissions profile information automatically carries into financial aid applications, reducing duplicate data entry and helping families complete forms faster.

Simplifies the Enrollment Process

Families complete admissions and financial aid steps in one place, creating a clearer experience while reducing reminders and follow-up from school staff.

Speeds Enrollment Decisions

When families complete admissions and financial aid forms in one place, schools can review accurate information sooner and move decisions forward faster.

Provides Peace of Mind

Custom security passphrases and two-factor authentication help protect family information while supporting secure data sharing between systems.

Aligns Admissions and Financial Aid Teams

Shared information reduces duplicate work, improves data accuracy, and keeps teams working from the same information throughout the enrollment process.
